EuroBlock Consult

What is EBSI ?

European Blockchain Service Infrastructure

European Blockchain permissioned
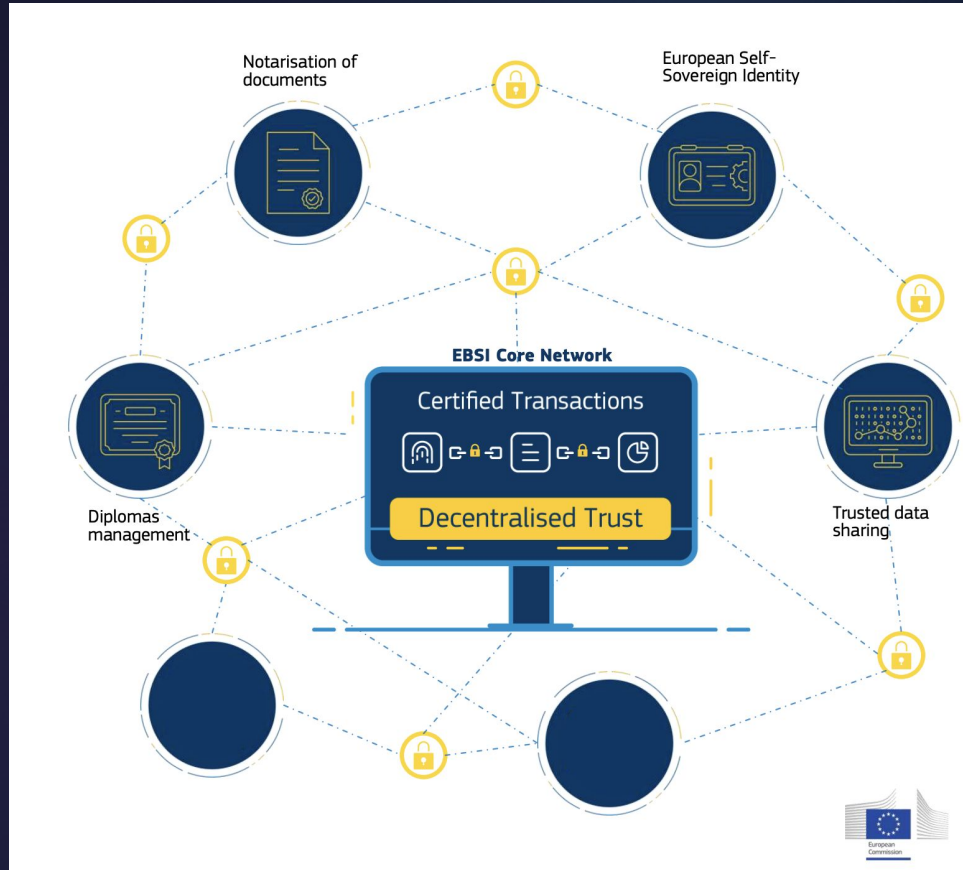

JavaScript on-chain interactions.

Future of the digital documents in Europe

How they define EBSI ?

EBSI in numbers

€38M
Invested in 2021-2022

+300
contributors

29
countries

36+ nodes
and counting

Technical EBSI Foundations

Based on **Hyperledger** technology

1️⃣ **Permissioned decentralised** Blockchain.

1️⃣ **Private** Blockchain

40+ Nodes pan-european

Problems

🔲

Digital KYC

🚻

Public Trust into Blockchain

🧛

Scammers and untrusted ecosystem actors.

Our solution

A Blockchain Consultancy for European Permissionless Entrepreneurs and Companies on EBSI.

We help them test and navigate EBSI's technical features and regulatory framework

We help entrepreneurs & microentrepreneurs to get funding

Announced use cases

🇪🇺

Data sharing among European public administrations
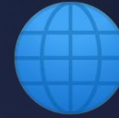

✍️

Notarization

🧑‍🎓

Diplomas

European Self-Sovereign Identity

Expected use cases

Track and Tracing along supply chains

Tokenizing real-world assets

DAOs

Payment services

Future Business model

EuroBlock Consult gets paid by clients. These are entrepreneurs and permissionless stakeholders.

Established stakeholders have the means to pay

We accompany **microenterprises and entrepreneurs** to get tenders/grants
